## Iron & Oak Introduces Dual Action Log Splitter

*BH2W2015GX cuts splitting time in half*

**Rogers, Minn. (August 2015)** – Iron & Oak recently released the BH2W2015GX, a dual action log splitter. This horizontal unit splits on both the forward and reverse stroke with just a 7-second cycle time. The model features a Honda GX160 engine with low oil shutdown protection, 25-inch log capacity and a 20 ton splitting force. Single control operation makes it easy to use. A large hydraulic system capacity keeps all hydraulic components running cool. Standard features include a log cradle, engine guard and heavy-duty fenders.

### **About Iron & Oak**

Iron & Oak is a U.S. based log splitter manufacturer with sales and distribution facilities located in Rogers, Minnesota. Since 1982, they've offered commercial quality log splitters rated among the top in their industry for their performance, ease of use and reliability.
